

Cloud Migration Services Proposal

Executive Summary

GroupDocs is pleased to present this proposal for the migration of Meridian Corp's on-premise infrastructure to a fully managed cloud environment.

The proposed solution leverages AWS services, including EC2, RDS, and S3, combined with a robust CI/CD pipeline to accelerate future development cycles. Total estimated cost for the engagement is **\$44,500 USD**.

Project Timeline (Weeks)

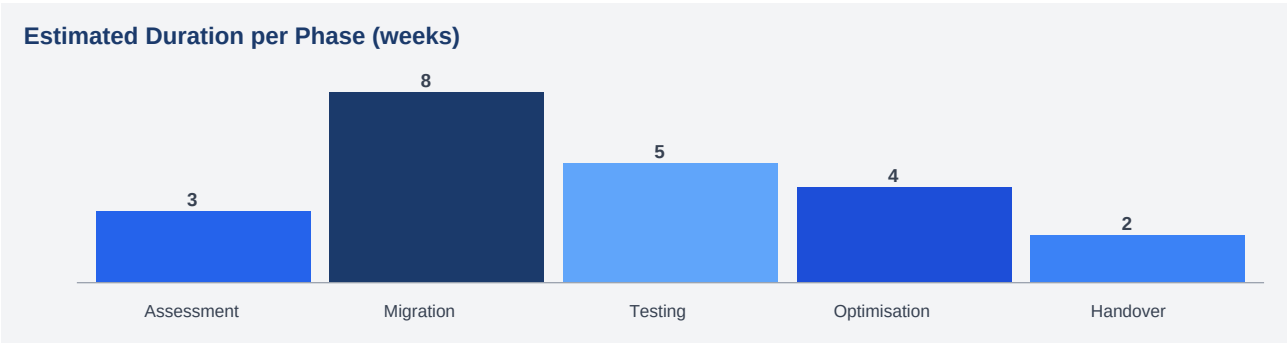

Fig. 1 — Planned phase durations based on infrastructure audit dated Feb 2026.

Cost Breakdown

Service	Unit	Qty	Unit Price	Total (USD)
Infrastructure Assessment	Report	1	\$4,500	\$4,500
Data Migration (up to 5 TB)	Project	1	\$12,000	\$12,000
Application Re-platforming	App	6	\$3,200	\$19,200
Security Hardening	Service	1	\$5,800	\$5,800
Total				\$41,500
